CAREER OBJECTIVE

Aspiring DevOps and Software Engineer skilled in Java, Python, C++, SQL, and cloud platforms with strong interest in AI, secure systems, automation, and scalable infrastructure.

EDUCATION

B.Tech in Information Technology	2023 – Present
Prince Shri Venkateswara Padmavathy Engineering College, Chennai	
CGPA: 8.2/10	
Class 12: 67%, Class 10: 80%	2016 – 2023
PM SHRI Kendriya Vidyalaya, Minambakkam	

SKILLS

Programming: Java, C++, Python, Bash
Databases: MySQL, MongoDB, Neo4j
Cloud & DevOps: AWS, Azure, Docker, Kubernetes
CI/CD & Tools: Git, GitHub, Jenkins, GitHub Actions
Big Data: Hadoop, Hive, PySpark
Monitoring: Prometheus, Grafana

EXPERIENCE

IT Infrastructure Intern – Petrofac, Chennai	May 2025 – July 2025
- Supported IT infrastructure and service delivery operations in enterprise environment. - Managed secure server systems and monitored performance in production environments. - Assisted in deployment workflows and infrastructure automation processes.	

PROJECTS

Prescription Extractor (AI Healthcare System)

- Developed AI-powered OCR system using Python, FastAPI, Streamlit, and PostgreSQL.
- Extracted patient details, medicines, dosage, and dates with validation and structured export.

Smart Attendance System (DevOps + Docker)

- Built an automated attendance management system with real-time tracking and user authentication.
- Containerized the application using Docker for consistent deployment across environments.
- Designed for scalable deployment with modular architecture and easy cloud integration.

LEADERSHIP & ACTIVITIES

- President – IntelliVerse Club (AI/ML), led technical initiatives and student projects.
- Organizer – Google Developer Group (GDG PSVPEC), managed and coordinated technical events.
- Attended Technocruise Workshop (IIT Kanpur) – Reverse Engineering and system analysis.

CERTIFICATIONS

- Neo4j Certified Professional (2024)
- Google Cloud Skill Badges (Compute, Storage, Pub/Sub, API Gateway)
- IBM – Fundamentals of Encryption and Quantum-Safe Techniques (2025)
- Databricks – Introduction to Apache Spark (2026)
- AWS Skill Builder – Foundations of Prompt Engineering (2026)
- Forge – Software Engineering Job Simulation (2026)
